

ECON 460: Women, Work, and the World Economy

Reading Guide: “Reshaping Adolescents’ Gender Attitudes: Evidence from a School-Based Experiment in India”

This article is neither long nor overly technical, so you should be able to read it straight through. Read the article, and then answer the following questions:

1. What type of program do the authors evaluate?
2. What is the main outcome that they study?
3. Where was the study conducted, and who are the participants?
4. What did the treatment entail?
5. How was the randomized trial structured? What was the unit of randomization? How large was the sample?
6. When were outcomes measured? What are the primary and secondary outcomes?
7. What regression specification do the authors use in their analysis?
8. What are the main impacts of treatment?
9. Do the impacts persist over time?
